

ENVIRONMENTAL POLICY

Aertssen Machinery Services is committed to excellence in environmental stewardship, integrating sustainability into all operations and activities across the organization. Achieving continual improvement in this area requires the active involvement, commitment, and effective communication of all employees.

Top management fully supports this policy, ensuring it aligns with the company's strategic goals. This commitment not only enhances employee morale and boosts the company's reputation, but also increases productivity, reduces waste, and minimizes environmental impact.

Top management is dedicated to ensuring the organization:

- Complies with all applicable environmental obligations.
- Provides employees and stakeholders with the necessary resources, guidance, and encouragement to meet Environmental Management System (EMS) requirements, in line with their roles.
- Conducts thorough environmental risk assessments, identifying hazards and eliminating risks.
- Integrates the EMS into all business processes.
- Protects the environment, prevents pollution, and meets other specific environmental commitments.
- Continuously seeks to improve environmental performance by reducing pollution, waste, and resource consumption.
- Utilizes cranes, vehicles, and equipment efficiently, ensuring proper preventive maintenance to minimize environmental impact.
- Considers environmental factors in the procurement of goods and services.
- Promotes personal responsibility among employees to contribute to improved environmental performance.
- Supports relevant management roles in demonstrating environmental leadership within their areas of responsibility.

This policy will be communicated to all employees and partner organizations. Employees and partners are expected to support and participate in its implementation, ensuring that their work is conducted with minimal risk to themselves, others, and the environment.
